<b>RESIDUAL MANAGEMENT CERTIFICATION</b>
--

<b>SUMMARY DESCRIPTION OF PERMIT</b>	Solid Waste Management Facility certification that wastewater treatment biosolids, septage, and special waste management activities comply with the Vermont Solid Waste Management Rules and Guidelines.
<b>EXAMPLE OF REGULATED ACTIVITY</b>	Management of wastewater treatment biosolids, septage, and special wastes (ex. paper sludges and dairy wastes) via a wide variety of strategies. The management options may include, but are not limited to: land application, composting, landfilling, incineration, and heat drying.
<b>CRITERIA FOR JURISDICTION</b>	Anyone who stores, treats or disposes of wastewater treatment biosolids and special wastes or who manages domestic septage at any facility other than a municipal wastewater treatment facility. Sludge Management Plans are required for sludge storage facilities located within the fence of a wastewater treatment facility.
<b>INFORMATION REQUIRED</b>	Solid waste management plan that provides a complete description of the waste management activities and strategy, waste characterization, and management site attributes in a manner that demonstrates compliance with the Solid Waste Management Rules. Private applicants, or municipalities that contract with private applicants for operation of these facilities, must include background review disclosure information as required by 10 VSA § 6605(f).
<b>WEB ADDRESS</b>	<a href="http://www.watershedmanagement.vt.gov/www/htm/residuals.htm">http://www.watershedmanagement.vt.gov/www/htm/residuals.htm</a>
<b>FEES</b>	\$1000.00 for waste management land application sites and facilities that further reduce pathogens. \$125.00 for all other types of facilities per application. No Fee for Sludge Management Plans
<b>APPLICATION TIME FRAME</b>	The performance standard for processing a complete application is 120 days (or 200 days with a public meeting). This period may run concurrently with the 90-day period for the background check review if one is required.
